

Thank you for taking the time to review the draft watershed management plan for the North Branch Au Sable River. We welcome your input and ask that you send comments back to our office, in care of Jill Scarzo, by March 9th. Email, regular mail or fax will work fine.

A few specific questions we'd really like your feedback on are listed below.

1) Looking at the three main goals listed, do you feel they are all appropriate and is there anything you feel should be added as a goal?

2) The tasks under each goal are listed in what we felt (at Huron Pines) should be the priority order. Please let us know what changes you think should be made to the list, what tasks should be added, and whether you think some tasks should be removed.

3) Do you feel that the lead organizations we have listed under each task are appropriate? And, if you are a leader of one of those groups, is the willingness there to take (or in many cases) continue a strong lead role?

4) Please add any additional comments.

We will review the draft and the comments received and host a public meeting later this spring, before presenting this plan to the Au Sable North Branch Area Association. Your input and support in helping improve and protect the North Branch Au Sable River is greatly appreciated.
